

# Author of the Month

## Dr. Sandra Bonura

1 p.m., Saturday, July 7, 2018

Mary Hollis Clark Conference Center

### Prayer & Politics in 19th Century Hawai'i

Please join native San Diegan, Dr. Sandra Bonura for a reading and discussion about her new book, *Light in the Queen's Garden*. Using a multitude of primary sources to gain perspectives on single events in history, Dr. Bonura's research methodology highlights the important role women have played in the movement to attain social reforms.

The setting is in Hawaii. Ida Pope, a pragmatic activist, who achieved on a small island what other extraordinary women like Jane Addams, Ida Tarbell and Lillian Wald did concurrently in their homelands. Unpublished diaries, letters, scrapbooks, oral history recordings and rare photos discovered in an antique trunk donated to Scripps Institution of Oceanography, tell a story that has never been told before.
